DETAILED ACTION

Response to Amendment

1. The amendment filed on 01/31/06 has been entered and made of record. Claims 2-7, 10-14, 27-29 are currently pending.

Allowable Subject Matter

2. Claims 2-7, 10-14, 27-29 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 2-7, 10-14, 27-29 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a method in a server for serving a first image from the server to a client, comprising the steps of: receiving a client request from the client, wherein the client request specifies a set of one or more bitmap characteristics for an image transfer, responsive to receiving the client request, generating a version of the first image for the image transfer that conforms to the set of specified bitmap characteristics; wherein the first image is stored in a first file, the generating step includes processing data for the first image in the first file to create a second version of the first image for the image transfer that conforms to the set of

specified bitmap characteristics; and storing data for the second version of the first image in a second file for transfer to the client and serving the second version of the first image back to the client, respectively, as set forth in claims 1 and 15, including all the features recited therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
